American AI
Government & Public Sector

CAPABILITIES STATEMENT

team@american-ai.us | +1-202-301-8508 | american-ai.us/government
75 E 3rd St., Ste 7, Sheridan, WY 82801

01 PRIOR TEAM EXPERIENCE

White House • DoD • ONR • DHS • USMC • USN • USA • USAF • DISA • USTRANSCOM • DLA • Dept of Education

Bank of America • Snowflake • Magellan Federal • Empower AI • Y Combinator

02 CORE CAPABILITIES

AI/ML Solutions
Document processing, fraud detection, predictive analytics, intelligent automation.

Cybersecurity
Zero-trust architecture, threat detection, vulnerability management.

AI Governance
Policy frameworks, risk assessment, bias auditing, compliance.

AI Consulting
Adoption roadmaps, technology assessment, implementation planning.

Data Modernization
Legacy migration, data lakes, real-time analytics, COBOL-to-cloud.

Cloud Infrastructure
FedRAMP cloud, hybrid/multi-cloud, containerized microservices.

AI Training & Simulation
Negotiation training, crisis response, workforce readiness.

Training & Change Mgmt
User adoption, organizational change, workforce upskilling.

03 CONTRACT VEHICLES & CREDENTIALS

Company Overview

American AI delivers secure, scalable artificial intelligence, IT modernization, and cybersecurity solutions for government, enterprise, and education clients. We transform manual and fragmented systems into intelligent, automated, and compliant digital ecosystems that improve operational efficiency, reduce risk, and enhance service delivery.

Core Service Offerings

Artificial Intelligence & Intelligent Automation

- AI strategy, governance, and implementation roadmaps
- Custom AI agents (chat, voice, workflow automation)
- Business process automation (RPA & AI-enhanced workflows)
- Predictive analytics and decision-support systems
- Data integration and AI readiness assessments

Information Technology Services

- Enterprise IT architecture & systems engineering
- Cloud migration & hybrid infrastructure (AWS, Azure, GovCloud)
- DevSecOps implementation
- Application development & legacy modernization
- Infrastructure optimization & IT service management (ITIL-aligned)

Cybersecurity & Risk Management

- NIST CSF & RMF implementation support
- CMMC readiness & compliance alignment
- Security controls assessment & authorization support
- Vulnerability management & incident response planning
- Identity & Access Management (IAM)
- Zero Trust Architecture design & deployment

Differentiators

- **AI Built Securely** — Cybersecurity embedded into every deployment
- **Mission-Focused Delivery** — Designed for operational impact, not just technical output
- **Framework-Aligned** — Mapped to NIST, CMMC, and Zero Trust standards
- **Scalable & Modular Architectures** — Solutions that grow with your mission
- **Outcome-Driven** — Measurable ROI focus with accountability at every stage
